CAREER OBJECTIVE

Aspiring IT professional with hands-on training in Network Solution & System Administration from IsDB Bisew, and Cyber Security. Skilled in configuring network devices, managing Windows/Linux servers, and identifying security vulnerabilities. Seeking an entry-level role to contribute technical expertise and grow in a professional IT environment

TECHNICAL SKILLS

- ❖ **Networking Fundamentals:** OSI Model, TCP/IP Model, IPv4 Addressing, Subnetting, Routing, Switching, Default Gateway, Routing Tables
- ❖ **Cisco Networking:** Router & Switch Configuration, Static & Dynamic Routing (RIP, OSPF), VLAN, Inter-VLAN Routing, ACL, HSRP, NAT
- ❖ **MikroTik Router:** Basic Configuration, DHCP Server, NAT, PPPoE, Bandwidth Management (Simple Queue, PCQ), Time-Based Bandwidth Control, Port Management
- ❖ **Virtualization Technologies:** VMware, Microsoft Hyper-V, Virtual Machine Deployment, Management, Troubleshooting, Lab Environment Setup
- ❖ **Windows Server Administration:** Active Directory (AD DS), Additional Domain Controller (ADC), DHCP, DNS, IPAM, ADCS, ADFS, ADRMS, Group Policy (GPO), File Server, IIS Web Server
- ❖ **Linux System Administration:** Command-Line Operations, User & Group Management, File Permissions & Ownership, ACL Implementation, YUM Package Management, Kickstart Automation, NFS Configuration, LVM, Samba (SMB)
- ❖ **Cybersecurity & Tools:** Vulnerability assessment (XSS, IDOR, SSRF, CSRF, Authentication Bypass, File Upload, PII Leaks), Burp Suite, NMAP, Metasploit, John the Ripper, Wireshark.
- ❖ **Hardware & Support:** CompTIA A+ aligned (PC assembling, troubleshooting, Windows 11 configuration).

ACADEMIC QUALIFICATION

Diploma in Network Solution & System Administration

Institute: IDB-BISEW IT Scholarship Programme

Duration: Completed [Year 2025-2026, 788 Hours]

Course Modules Included:

- Hardware Fundamentals
- Data Communication Systems I & II
- Configuring Windows 11 & Windows Server 2019
- Networking & Identity with Windows Server 2019
- Red Hat Linux System Administration I, II, III

Master's (MA)	Govt. Titumir College	Islamic Studies	2024	CGPA 3.31
Bachelor's (BA)	Govt. Titumir College	Islamic Studies	2023	CGPA 3.28
HSC (Alim)	M.U.M.I.B.K Madrasah	Humanities	2019	GPA 3.64
SSC (Dakhil)	M.U.M.I.B.K Madrasah	Science	2017	GPA 4.39

CERTIFICATIONS & WORKSHOPS

- MikroTik Certified Network Associate (MTCNA). [Link](#)
- MikroTik Certified Routing Engineer (MTCRE). [Link](#)
- MikroTik Certified Security Engineer (MTCSE). [Link](#)
- CCNA (Cisco Certified Network Associate - training completed)
- Red Hat System Administration (RH124, RH134, RH254 - training completed)
- Cybersecurity Workshop: Web Application Vulnerabilities & Burp Suite. [Link](#)
- CTF: Capture The Flag.

PROFESSIONAL EXPERIENCE

Junior NOC Engineer

Duronto Internet | Nikunjo, Khilkhet

July 2026 – Present

- Provided customer support and managed network service.
- Troubleshoot connectivity issues including **no internet, slow speed, intermittent connection, high latency, packet loss, and gaming ping**.
- Performed **VLAN tagging/untagging** and ONU/ONT signal checks.
- Configured and troubleshoot **customer routers, PPPoE, DHCP, and Wi-Fi**.
- Diagnosed connectivity issues using **Ping and Traceroute** and escalated complex faults.
- Escalated complex network and field-level issues to senior NOC/network teams and followed up until resolution.

Independent Security Researcher | Bug Bounty Hunter

HackerOne • Bugcrowd • Intigriti • YesWeHack | 1 Year Experience

2024 - 2025

- Reported **100+ Low–Critical vulnerabilities** through authorized bug bounty and responsible-disclosure programs.
- Conducted web/API security testing covering **XSS, IDOR, SSRF, CSRF, SSTI, Authentication, Access Control, Race Conditions & Business Logic** vulnerabilities.
- Used **Burp Suite, Nmap, Nuclei, SQLMap, ffuf, Subfinder, Amass** and related security tools for vulnerability research and PoC development.

PROJECT

1. Departmental VLAN Network Design and Secure Inter-VLAN Communication

Project Link: [Click Here](#)

2. Windows Server Enterprise Infrastructure (AD, DNS, DHCP, IPAM)

Project Link: [Click Here](#)

3. Redundant DNS with Master-Slave Replication (RedHat Linux)

Project Link: [Click Here](#)

4. Linux Mail Server with Backup & Recovery (RedHat Linux)

Project Link: [Click Here](#)

5. Secure Samba File Sharing (RedHat Linux)
